Blag The Ripper

Dwarves

On the street in this town All the meat hanging round And I watch And I watch From my window Oh but they don't know Said they don't know Yeah well they don't know No they don't know Life is just an open sore Suffocation nothing more Used to date the teenage queen Did her upon her sweet sixteen I'm Blag the ripper Blag the ripper Blag the ripper I'm Blag the ripper Girls are dying on my block Needle marks inside their hearts And where the highway roars I totaled the local whores I'm Blag the ripper
