

Drive The Future

Dwele

Oh, yeah, the one who knows
The one that shows
The one who grows
They be like showing others the path to go
Giving the youth someone to look up to just by being
The creator of others dreams

Who loves the one who gives
The one who lives
For showing others sister, brothers
Who to build a better future for
Our sons and daughters kids
The planter of future seeds

Drive the future
(Drive the future)
You are my hero
(You are my hero)
Drive the future
(Drive the future)
You are my hero, yeah
(You are my hero)

Many times corruption finds a young ones mind
We need someone to help them find the way that's right
While others seem to get caught up with greed and selfish things
The creation of a young man's dream

Together we rise, together we create more
More opportunities, more open doors
Don't be the one to ride into an uncertain future
Grab the wheel, make your own path like we used to, hey

Drive the future
(Drive the future)
You are my hero
(You are my hero)
Drive the future
(Drive the future)
You are my hero, yeah
(You are my hero)

Cant you feel it?
It's real
Drive it
Drive it, yeah

Drive the future
(Drive the future)
You are my hero
(You are my hero)
Drive the future
(Drive the future)
You are my hero, yeah
(You are my hero)
