

# Send a Message to My Heart

Dwight Yoakam

Send a message to my heart  
On the wings of the wind  
Let me hear your sweet voice sayin'  
You love me again

Even though we're apart  
I still hold your memory  
Send a message to my heart  
To keep you here with me

Darlin' when you're all alone  
Tell me do you think of me  
Does my name touch your lips  
Am I still in your dreams

Do your arms reach out for mine  
In the still of the night  
Do you wish that I was with you  
When you turn out the lights

Send a message to my heart  
On the wings of the wind  
Let me hear your sweet voice sayin'  
You love me again

Even though we're apart  
I still hold your memory  
Send a message to my heart  
To keep you here with me

All these moments alone  
Make me realize  
Just how empty this old world is  
Without you in my life

But our day is yet to come  
And our love is so sweet  
Send a message to my heart  
To keep you here with me

Send a message to my heart  
On the wings of the wind  
Let me hear your sweet voice sayin'  
You love me again

Even though we're apart  
I still hold your memory  
Send a message to my heart  
To keep you here with me

Send a message to my heart  
To keep you here with me
