You're the One

Dwight Yoakam

You're the one You're the one That made me cry Oh you're the one That laughed at me Then said goodbye You're the one You're the one That made me blue So how's it feel Now that you're the one Its happened to Now you're back calling me with open arms What happened to the one you met with all that charm You say he's gone And you're alone Well that's a shame But if you think real hard I know you'll see Just who's to blame Now you're the one You're the one That made me cry Oh you're the one That laughed at me Then said goodbye You're the one You're the one That made me blue So how's it feel Now that you're the one Its happened to You're begging me to think about the love we shared Yet it seems to me not too long ago, you didn't care The love you left No longer lives Within my heart See the game you played So recklessly Tore it all apart And you're the one You're the one That made me cry Oh you're the one That laughed at me Then said goodbye You're the one You're the one That made me blue So how's it feel Now that you're the one Its happened to

Oh tell me how's it feel, now that you're the one How's it feel to be the one How's it feel now that you're the one its happened to

You're the one Oh, you're the one You're the one Oh you're the one Oh you're the one yeah you're the one Oh you're the one Oh you're the one
