

Rush Of Life

Dyecrest

Laughing as you try to save me from fallin'
Don't waste your breath, I'm already crawling

My master and savior has promised me freedom
As long as I don't question these methods he's keep on

This is the time you choose
The side you're on, win or lose

Rush of life
The minute I let go
Injected by fear, refusing to say no
Rush of life
The minute I'm going down

Searching for meaning, now seems so futile
I am still locked inside my own mind

This is the time you choose

Rush of life
The minute I let go
Injected by fear, refusing to say no
Rush of life
The minute I'm fallin'
The prize is mine
As long as I stay alive
