

## Hot Breath Of Night

Dying Passion

Only the sensitive can see the light,  
The light is a remedy,  
Your sense and faith  
Are making your decisions,  
You cannot express it.

In the time lapse,  
You're in love with the life.  
Music has a curative power,  
A regular interval of dark,  
Comes and goes.

Night of demons,  
You know  
You're sweltering, even in the night.  
When you sleep,  
The Earth breathes along with you.

It's a morning, the day is breaking.  
Your hour of goodness is coming.  
A cold sweat all over your body  
It's hot as hell in the room.  
You still remember those years.  
They've gone a long time ago.

But it's all coming back to you  
In your dreams,  
And you have no choice.

Night of demons,  
You know  
You're sweltering, even in the night.  
When you sleep,  
The Earth breathes along with you.
