

## Within Reach

## Dying Passion

Just few steps in front of me  
And I Will be there with you again  
Your thoughts suggest to come along  
That's a very moment  
I've been looking for  
For all my life

I've Always tried to copy you  
I've walked devoted in your shadow  
Stumbling in your footsteps  
But you didn't spare me pain and played tricks on me

Despite of these I've been following you  
And your noble grace

Now I'm wiser  
I have learnt my ups and downs  
Met entire nations  
Bled them dry just what you called  
"The Way to Me"  
You told me it's the only way  
To keep up with you and made me a fool

Despite of these I've been following you

Despite of these I've been following you  
And your noble grace

And I'll be in your arms for this once  
Embraced with your gracious love

Within my reach!  
Just to touch!  
I should try that way!
