Slow Down

Let's Go!! Well it's too soon, it's too much for me to ignore I never tried to run 'cause I thought I wanted more I hate to ell you this, please don't walk right out the door My mind's on cloud nine, but my heart fell through the floor I'm tellin' you

Slow down- I gotta get used to this somehow Slow down- I've spent so long in lonesome town Slow down- You say the 'L' word, I have to frown Slow down- And let me make up my mind now

And now I'm lost, I think my fear is warranted because I know you're gonna break my heart again so this time I won't let you crawl inside my head because losing love is the one thing that I dread I'm tellin' you

Slow down- I gotta get used to this somehow Slow down- I've spent so long in lonesome town Slow down- You say the 'L' word, I have to frown Slow down- And let me make up my mind now

[Bridge]

Slow down- I gotta get used to this somehow Slow down- I've spent so long in lonesome town Slow down- You say the 'L' word, I have to frown Slow down- And let me make up my mind now
