

You Know

Dynamite Hack

You are so pretty here
That I'm falling behind
Oh no not again nevermind
Let's go and beg for time
You the picked the wrong disaster
I can't stop this thing from going fast
I don't want to walk about the past
I don't want to talk that road of those
You may have had

You know
These things they happen

Which one do you want
There is no need to think
To speak to breathe
Let's go it's chemical green
You picked the wrong addiction
