

# Land Of Broken Dreams

Dynazty

Eyes, I look into your eyes  
I try to realise you're not longer there  
Fear, I'm fighting with my fear  
A feeling so surreal, more than I can bear

I'm walking down the road  
I'm left out in the cold  
I try to find a way on my own

In the land of broken dreams, the home of broken hearts  
A place filled with loneliness where love has fallen apart  
In a world of lost belief, it's as sad as it seems  
I walk this lonely street of the land, the land of broken dream  
s  
The land of broken dreams

Hand, I held it in my hand  
I try to understand what I did do wrong  
Crime, if passion is a crime  
I'm guilty of love and I was all along  
I try to stay alive, to be strong

In the land of broken dreams, the home of broken hearts  
A place filled with loneliness where love has fallen apart  
In a world of lost belief, it's as sad as it seems  
I walk this lonely street of the land, the land of broken dream  
s

The land of broken dreams  
My home, my land of broken dreams

(In the land of broken dreams, the home of broken hearts)  
A place filled with loneliness where love has fallen apart  
In a world of lost belief, it's as sad as it seems  
I walk this lonely street of the land, the land of broken dream  
s

The land of broken dreams  
The land, the land, land of broken dreams
