

Lights And Dreams

Dyslesia

In the madness of this eternity
I always knew what I wanted to be
To slip into a nightmare from fantasy

I am living on the road
Where my dreams are changing into dust
Like a shadow i'm dancing on the wall

I had a dream of a never ending flight
I needed someone to explain to me this insanity
Please show me the way to the morning sun

Eternal sleep made a lasting vision
Eternal fears 're burning my head
Moonlight surrounding me
I am trapped in this world
There's no way out
There are lights and dreams

I have seen the indifference
But there was no one by my side
Please show me the way to my heart

Can we be so blind
It was a time when all was changed
Now it is a time when all is strange
