DZ Deathrays

I don't know, kick it out of sight of you
I'm breaking in, you make me feel explosions in my
heart.

Tell you all, noises were clear and loud
Mess it up, clean it up, this poison empty house.

Your eyes like diamonds tickle gold,
You know our bodies make the right conversation.
Your eyes like diamonds tickle gold,
You know our bodies make the right conversation.

I could see color up but I ain't blind,
Love to be center up with you on sunrays shine.
You ran away, still waiting for the best time of your
life,
Burn slow, breaking up, this fire's back in your house.

Your eyes like diamonds tickle gold,
You know our bodies make the right conversation.
Your eyes like diamonds tickle gold,
You know our bodies make the right conversation.

Well, I don't know, get you out of sight and you went
out
Walking in, make me feel explosions in my brain.
Play it all, noises were clear and loud,
Mess it up, clean it up, this poison empty house.

Your eyes like diamonds tickle gold,
You know our bodies make the right conversation.
Your eyes like diamonds tickle gold,
You know our bodies make the right conversation.

I want your diamond eyes!
I want your diamond eyes!
I want your diamond eyes, So we can talk it out!

I want your diamond eyes!
I want your diamond eyes!
I want your diamond eyes, so we can talk it out!

I want your diamond eyes!
I want your diamond eyes!
I want your diamond eyes, so we can talk it out!

I want your diamond eyes!
