Cause in magnum central and the bay they'll pop you in ya spine
And california is hella hectic tips get sent, intercepted and redirected
Can't be running around this motherfucker loose as a goose
They'll turn you to a vegetable like the soup
Now I don't condone busting a suckas dome
But if he plottin on my dome goin get his dome blown bitch
If there's money being generated I want part of it
Keep a low profile stay low key won't get targeted
Neva my multiplications, splitting the block and it's booming
And if I get ever get popped or pined it's a family reunion

Drinking cadillacs, coco and coffee prunos
