

Up all night, things I gotta pull night  
If you pull a gun man you better use it  
Got one life, it's easy to lose it  
(What is it?)  
This is goon music  
This is goon music

Goon music at its best  
From the west where they will open up your chest  
Leave your brains in your lap right by your Fendi belt  
With your bitch in the passenger seat, yellin' for help  
Gotta stay prayed up, 'cause your life can be taken  
Niggas be phone pimpin' and infiltratin'  
Unfortunate situation  
They'll catch you at a gas station  
Or on a freeway takin' your exit  
Pop one of your loved ones, send a message (uuuuh)  
It's bad where I reside  
These streets will swallow you up and eat your ass alive (uuuuh)  
Hammers and nails  
Funkin' over females  
Metal detectors and pat downs ain't safe enough  
Sneak in the club with a thumper twisted in his dreadlocks  
(Biatch)

Up all night, things I gotta pull night  
If you pull a gun man you better use it  
Got one life, it's easy to lose it

Me and my niggas be cuttin' up  
Admirin' older cousins hot wirin' and stealin' stoleys  
Joy ridin', high sidin', turnin' donuts in front of police  
It's do or die on the soil it's ugly all year round  
I swear I know some females that would knock your ass down  
They don't care, they ain't listenin', ignore you can't hear a sound  
my beef from Richmond, to Sco' to VR the Town  
Over the stove in the kitchen, posted up with the 30 round  
Everybody get down  
Yellow, white, black and brown  
Uuuh, don't believe it bitch I can show you, I can prove it
