

What Is It Over?

E-40

Same hood same block same city yea we all come from the same place
(Same hood same block same city)
Why we family yet we funkin with each other tell me how'd it end up this way
(Same hood same block same city)
Same hood same block same city yea we all come from the same place
(Same hood same block same city)
Used to be friends now we warring with each other tell me how'd it end up this way

They went to kindergarten together lived round the corner from each other
p p warner together played sports together
His mother grew up with his mother
Now is a game of cat and mouse they hunting they tucking they barkin ducking
and hiding and running
Bustin and dumping bucket and gunnin I don't know why
Is it childhood friends always end up beefing warring and funkning falling out
with each other over some money or a woman?
At first nobody died just a couple of fights and some shit talking
But once somebody died its almost impossible to solve the problem its almost
like
56 once they spot him in the daylight they got him coming up outta his cab
split his ass in half
Walked away like nothing happened without even being noticed a couple aliens
from out of town a couple of foot soldiers
Stolen toyota corolla parked down the street tank down near empty foot soldiers
on feet
Jumped in the car and got windy in these streets you can't be weak can't pool
dle up and be too friendly
They're sneaky man they cheeky so called friends become frenemies

Same hood same block same city yea we all come from the same place
(Same hood same block same city)
Why we family yet we funkin with each other tell me how'd it end up this way
(Same hood same block same city)
Same hood same block same city yea we all come from the same place
(Same hood same block same city)
Used to be friends now we warring with each other tell me how'd it end up this way

Rule of thumb number one never leave the crib without packing you a gun can't
be snoozing
When you feuding man protect your punk ass at all times stay wolf you might
wanna get your pen and pad
While I explain the rules
It used to be unity in the hood but niggas hate to see the next nigga do good
the next nigga got work
Ethic and yours ain't what it should every second a child is born every second
one taken away just a other day
A lil baby got hit with a stray bullet they poured it cut him down with a k
In the middle of the day missed they target they got away s'why
I always pray huddled up I say me and my family members like we calling a play
better
Watch who you talking around never know who know who cause a hit can come out
the blue just like the flu
Cause ugly out here's trifling and they betray you for some money some shit
you thought your folks would never do bitch!

Same hood same block same city yea we all come from the same place
