E-dubblé

Yeah some days, I feel unphased  
Like when I'm with my friends with a cup raised  
But come monday, I got a gun raised  
Suicidal do or die until hump day  
Then I go right back at it like an automatic  
More drinks, more songs, more beats to rap to  
Need a shrink, I'm gone more time keeps passing  
No watch no thoughts at all just a hat  
New era, rep my P's and those O's  
Need a phillies with the orange and black to feel home  
From citizens bank back to camden yards  
Its the tale of two cities and TRUST we go HARD  
Trust we go HARD  
Yes we go HARD  
You said we go HARD?  
I said we go HARD  
Rockin' my bob cousey's  
Stockin' UP on the looseleaf  
The lyrics come easy but the life is a dousy  
And yes I'm choosy and no I don't settle  
But I still take pop-off over that kettle  
Cuz' im talkin bigger picture  
And yes I'm gonna hitcha  
With that -  
No shittin'  
Speak- When necessary no I never been a loud mouth  
Introvert but I insert a few wow- outs  
No nick cannon- david banner when I pow-wow  
Hennessy but hold the hip I'm bout to have a brown out  
Clowns runnin' round with the make up on they face  
To that I'm astringent - I been this way  
New bars, new beats, yeah that's me all day  
New cars, new freaks, no you keep that mayne  
I'm a business man, and a business- MAN  
Obstacles made me who I am  
Let loose, no truce, my boots come off  
Once black paisley has made my- families fortune  
With a corner office and the greener pastures  
Sip cheap liquor till' I'm leaning backwards  
Grip this dream you can see my passion  
Rep my city no beef with asher  
Blue bell, ambler help me write the chapters  
I'll be home soon and we'll toast the asti  
Sip ME-Mosas till me no, no my name  
E-V-A oh shit I'm gone ag-AIN  
Back to the mansion and yes I'm home ag-ain  
Rockin' in hampden and yes you know the name  
Young english, black paisley, irishtoothache  
Who they be, who they be, who they be, who they be  
They be US  
Poor english, screwed up semantics  
I am talking real shit speak my language  
Celebrate the blemishes  
Throw away the tenative  
I be on some other shit so go and tell the other kids
