E-dubblе

[Hook:]

Whats up girl, how are things  
Its karaoke night so you got to sing  
I'll go first, take your time  
Hungry like the wolf when the crowd is mine  
4 more shots, now you're good  
Singing attitude like I know you would  
Spill your drink, thats just fine  
Cause we're singing karaoke in the summer time

I grip that mic, but never when I'm sober  
Feel'in like a rich man that never drove a rover  
Thats ok cause I never need a whip  
When the bar is the only place I ever have to get  
So lets get comfy, lets get friendly  
I love the way you dress like a nerd thats trendy  
Just like me cause I do the same thing and I wear the same jeans but I never  
feel plain  
So put that drink down, we gotta dance now  
Olivia Newton has got me in a trance now  
I throw back brain washed as a little guy  
12 jackin gingers now I'm just a little high  
Feel good when I'm movin them feetskies  
You look great as you shake to the beatskie  
DJ please play another jam, and mix it right so I don't stop dancing

[Hook]

Yup, now lets get those pants off (what)  
My room is a dance hall, and I'm the selected peeped the damn dance song  
Ya, top hats and silk scarfs, we got no money but fuck it we live large  
We got no money but fuck it we still stars

[Hook]
