

Give Me Some Time

E.M.D.

Freeze the time
Stay with me
Can we linger on
Like the stars in the night

Take it all
Let me feel
That you break my fall
Save tonight stay forever

I know- You know
We must- Let go
Although it's true what I'm feeling
I must be strong, when all faith is gone and
I'm all alone

Give me some time
To leave it all behind
Baby I will make it
Just give me some time
I'll never be the same
But I'll be alright just give me some time

I try to run
I try to hide
But I can't get away
Cuz everywhere I see your face

I'm taking off and
I leave behind
Everything that hurts
Need to mend
Just give me time

I know- You know
We must- Let go
Although it's true what I'm feeling
I must be strong, when all faith is gone and
I'm all alone

Give me some time
To leave it all behind
Baby I will make it
Just give me some time
I'll never be the same
But I'll be alright just give me some time

Soon I'm free
Soon you're gone
You'll wake up to another dawn
I'll be fine, I'll be alright
Wish I could hold you through the night

Give me some time
To leave it all behind
Baby I will make it
Just give me some time

I'll never be the same
But I'll be alright just give me some time

Give me some time
To leave it all behind
Baby I will make it
Just give me some time
I'll never be the same
But I'll be alright just give me some time
