

We all need freedom and love and peace
Let us light up our fantasies
Make the world survive,
Keep the dream alive
We all need freedom and love and peace

Look around, look around
The world is moving down
Shapes are fair, everywhere,
And no one seems to care
Can't you see
Only lovin', only lovin' sets free
Can you hear what I say
There is a simple way
Feel my heart, take my hand
We've got to make it end
Listen please
Only lovin' means, lovin' means peace

And if you ask me why
I won't tell you non lie
Take a chance on the truth
We've got to enter, please
It's enough
Only freedom makes freedom makes love
Look around, look around
The world is moving down
Shapes are fair, everywhere
And no one seems to care
Can't you see
Only lovin', just lovin' sets free
