

I Want You

E-Rotic

But don't you know I want you?

Soul to soul
Can't you see I'm falling?
Can't you hear me I'm calling
To reach your heart?

Soul to soul
When the night is burning
And the shadows are turning
To make us part

Baby, don't cheat me
And if you need me
Treat me right

But don't you know I want you?
I will keep you from danger if you want me too
I want you
If you want me I'll make it, if you want me I'll take it
All that you're gonna give

Don't you know I want you?
I will love you forever if you want me too
I want you

If you want me to reach you, if you want me I'll teach you
How to love and to live
Baby, 'cause I want you

Soul to soul
Say you stay forever
I will make it together through night and day
Soul to soul

When the flames get higher
Feel the heat of the fire
Don't go away

Baby, don't cheat me
And if you need me
Tonight
