Kiss me, fly me up high Wanna feel like a frisbee high in the sky Oh, I want you to kiss me, do it all right 'Cos, I know that you miss me

I dreamed of you In so many lonely nights With my body and soul

And I know you were Out there in the city lights Just out of control

Hey, I walked around and all I found Was me myself just losing ground I missed you, but I walked on thin ice Like a clown in disguise

All the time, there was your face You, only you can end the race Love me, in the heat of the night Babe, I fell like dynamite

Kiss me tonight
Till you find the secret spot
Up and down and again

Baby, lay by my side And search for the honey pot I know that you can

I'm doin' what you want to do
You know the stories about me are true
I'll kiss you, you know I care
Here and there and everywhere

Come closer, let me feel your tongue It's so good, it can't go wrong Together we'll climb the hill Oh, what a thrill, if you will

Kiss me, baby, I want it, I want you to miss me Baby, I need it, I need you to kiss me Baby, I want it, I want you to miss me Baby, I love you, I love you so much Kiss me, smack
