Say do you wanna get close to madness Say do you wanna get close to the fire Why don't you meet me down by the seaside And join the beat in the heat of desire Hey what about you Would you like that too If I will do it - Hey what would you do Makin' love in the sun Just love in the sun Can't you see - You and me -We will sure have some fun Makin' love in the sun Just love in the sun You can feel - It is real - So like hearts on the run Say do you wanna get all or nothing Say do you wanna feel somethnig just great Why don't you join me for a sensation Oh please come soon - It's high noon - Don't be late Hey what about you Would you like that too If I will do it - Hey what would you do Makin' love in the sun Just love in the sun Can't you see - You and me -We will sure have some fun Makin' love in the sun Just love in the sun You can feel - It is real - So like hearts on the run Makin' love in the sun Just love in the sun Can't you see - You and me -We will sure have some fun Makin' love in the sun Just love in the sun You can feel - It is real - So like hearts on the run
