

## Seven Seconds

E-Rotic

You're just seven seconds away

Hear me calling, it's like falling into the land of silence  
You're so near and yet so far away  
I'm not jealous, I'm not crying but I can feel the violence  
When I try so hard to make you stay

You're just seven seconds away  
That's much, too much. I can't touch your heart  
You're just seven seconds away  
But, babe, it hurts when we're worlds apart  
You're just seven seconds away  
You're just seven seconds away

I feel lonely but I only miss all that inspiration  
And the way you treat me right at night  
Please come closer, hold my body, gimme that big sensation  
And that everlasting light inside

You're just seven seconds away  
That's much, too much. I can't touch your heart  
You're just seven seconds away  
But, babe, it hurts when we're worlds apart  
You're just seven seconds away  
You're just seven seconds away

You're just seven seconds away  
That's much, too much. I can't touch your heart  
You're just seven seconds away  
But, babe, it hurts when we're worlds apart  
You're just seven seconds away  
You're just seven seconds away

You're just seven seconds away
