

Tears in Your Blue Eyes

E-Rotic

Please, don't tell me love is just a chain
Don't say your feelings will drive you insane
Please, don't tell me you don't care about me
Baby believe me, your heart won't set you free

I saw the tears in your blue eyes
I saw the sun of love a rise
So don't pretend our love is gone
It's gonna move us on and on
I saw the tears in your blue eyes
When we were lost in paradise
I know we shared forbidden dreams
But we found help and so it seems
When I saw tears in your blue eyes
I saw the tears in your blue eyes
Hmmm

So tell me where will you be tonight
Cause I need your body right here at side
I, belong to you with all my heart
The power of evil can never make us part
