

The Power of Sex

E-Rotic

Your hand is just magic
Your voice so exciting
Your arms so inviting
And I'm in love

I feel the sensation
A running temptation
I do what you do and I'll give everything to you
Cause it's the power of sex
Your body never forgets

It's just the power of sex
That makes you tender and strong
A river of passion that will carry along
It's just the power of sex
And life's a fire of love
And deep down you feel that you will never get enough
Of the power of sex
You'll need the power of sex

So lay down beside me
Emotions expending
The nights never ending
And I'm in love

I know you will free me
Your eyes they will see me
Like no one before
And we will go for more and more
Cause it's the power of sex
Your body never forgets
