

When I Lie

E-Rotic

Talking about the love that we once shared
I remember baby I really cared
For you - oh babe for you
Talking about the times I feel the pain
When every dream is all in vain
That's why - that's why I lie

When I lie
I know you know it's not true
When I say I don't miss you
Cos my heart is crying
When I lie
I'm lying cos I miss you
There's nothing else I can do
But I'm still still trying
When I lie
I'm lying cos I miss you

Talking about the dream that made us fly
There's an aching, baby, deep inside
Cos you made me feel blue
Talking about the nights of ecstasy
When you meant everything to me
Till you said we were through
