

## Wild and Strong

E-Rotic

So close to you when times are getting rough  
I'm captured by this neverending love  
It's magic, tragic  
You arms are holding me so gently and sweet  
Because you know what I need  
It's so wild, it's so strong. Together we belong  
In the cold of the night I can feel your tongue  
It's gently moving upon my skin  
So how can love be a sin?

A love so wild and strong will never lead you wrong  
It makes your heart beat fast  
And all your dreams will last  
Keeps going on and on just like an endless song  
A love so wild and strong

Oh babe we're on an erotic journey  
You are the teacher and I'm, well... I'm just learning  
I can feel you. I know it, we're going much too far  
It's so catchy, it's magic. I wonder where we are  
I will always be with you, my love is really true  
Together we'll forever find solutions that are new  
Believe me, baby, we will survive  
The ups and the downs throughout our life

A love so wild and strong will never lead you wrong  
It makes your heart beat fast  
And all your dreams will last  
Keeps going on and on just like an endless song  
A love so wild and strong

A love so wild and strong will never lead you wrong  
It makes your heart beat fast  
And all your dreams will last  
Keeps going on and on just like an endless song  
A love so wild and strong
