

Wish You Were Here

E-Rotic

Into the night I am falling
With no one by my side
Missing your love warm and tender
My heart feels like a satellite
I wish yes I wish you were here
In the dark of the night
And I miss you like crazy
I wish - Yes I wish you were here
Want you right by my side
So the nightmares won't chase me
Babe it's more than a feeling
That sometimes comes and goes
I will hold you forever
You can trust me heaven knows
I wish - Yes I wish you were here
Cos I'm lost on my own
Torn between my emotions
I wish yes I wish you were here
And I feel so alone
Like a tear in the ocean
I wish - Yes I wish you were here
Cos I'm lost on my own
Torn between my emotions
I wish Oh I wish you were here
And I feel so alone
Like a tear in the ocean
I wish you were here
