Stay...keeps me on my feet /makes my heart beat. When you're born w/ pain it always remains. no matter How your life changes, it never fades. if I could cry until The world stops turning. to give me some time to think. My insides are still burning.

What the fuck is wrong with me? I got a ticking time Bomb in me. block your teardrops. stop...lock your handle. The world don't stop boy. the world won't stand still. What the fuck is wrong w/ me? I got a ticking time bomb in Me. Happiness is gone from me. will I be who I think I should be? nothing's ever as good as it seems. nothing's Ever as good as it seems. no.

Tick-tock-tick-tock. tick-ticking-ticking. What the fuck is wrong w/ me? there's a ticking time bomb In me. happiness is gone from me. chasing those perfect Dreams. what the fuck is wrong w/ me? got a ticking time Bomb in me. nothing's ever as good as it seems. nothing's Ever as good as it seems.
