

I Just Wanna Be With You

E-Type

It's time to cut the slack now
You are gonna hear me ballin' truth
Back out from the underworld I'm here now
I've got something to prove

So hush and keep up now serious
I'm telling you that she's one of a kind
Keep all your fingers to yourself
I'm here to take back what's mine
Hear me say

Ahh
This time you're all mine
Ahh
Let it shine

I can't get you off my mind, I just wanna be with you
You're the best I'll ever find, I wanna be with you
I can't get you off my mind, I just wanna be with you
You're the best I'll ever find, I wanna be with you

I'm on a mission from God
I'm crazy, this war that I will win for sure
My middle name is Overkill
Keep watching, you'll see that I will score

Boom, boom, when we come across the sea
Whatever we search for we will find
Keep all your fingers to yourself
I'm here to take back what's mine
Hear me say

Ahh
This time you're all mine
Ahh
Let it shine

I can't get you off my mind, I just wanna be with you
You're the best I'll ever find, I wanna be with you
I can't get you off my mind, I just wanna be with you
You're the best I'll ever find, I wanna be with you

Hear me, I'm here to take back what's mine
