

Feel This Way

Eagle Eye Cherry

I don't know why you never noticed
So many people that we don't miss

No time, never time to speak
Don't mind every time we meet this way
How long can we feel like this?
So long, now we never miss this thing

Like we're never gonna feel this way again
Like it wasn't even real, so let's pretend
Like we're never gonna feel this way
We're never gonna feel this way again

Don't ask me why we can't control this
How much you try, can't keep your promise

No time, never time to speak
Don't mind every time we meet this way
How long can we feel like this?
So long, now we never miss this thing

Like we're never gonna feel this way again
Like it wasn't even real, so let's pretend
Like we're never gonna feel this way
We're never gonna feel this way again

No time, never time to speak
Don't mind every time we meet this way
How long can we feel like this?
So long, now we never miss this thing

Like we're never gonna feel this way again
Like it wasn't even real, so let's pretend
Like we're never gonna feel this way
We're never gonna feel this way
Like we're never gonna feel this way again
