

Something

Eagle Eye Cherry

Find out what I would want
Without any whiskey
I'm at a loss of words
'Cause I was on my way
I wanted to be with you
And now I regret that day

Something special's coming on
I waited too long
I waited too long
The reason I missed the setting sun
I waited too long
I waited too long
Waited too long, for so many years

How I wish we found a way
When this world came down on us
I wanted you with me
And now I'm alone today
I said...

Something special's coming on
I waited too long
I waited too long
The reason I missed the setting sun
I waited too long
I waited too long

Something special's coming on
I waited too long
I waited too long
The reason I missed the setting sun
I waited too long
I waited too long
(I waited too long)

Too long...
