

# Burned By The Sun

Eagleheart

We have rised form darkness  
born form the ashes of past  
Looking into the eyes of desire  
Changing our world too fast

The colors are fading  
and the nature slowly dies  
Welcome in times where truth is buried by the lies

The path is unknown  
Noone left to teach, noone wants to learn  
Guided by the vision we are reaching the point of no return

Racing forward we are loosing ground beneath our feet  
Evolving we are slowly killing everything that breaths

Straight to the sun we walk through endless desert sand  
Empty and blind we'll never realize  
Believe in lies we will never satisfy our thirst  
One by one in this march of death we'll fall

Let stop ourselves for a while  
We are on the edge of the abyss ready to fall  
Turn away your eyes from the light  
See the caravan of mankind burned by the sun

Racing forward we are loosing ground beneath our feet  
Evolving we are slowly killing everything that breaths  
Straight to the sun we walk through endless desert sand  
Empty and blind we'll never realize  
Believe in lies we will never satisfy out thurst  
One by one in this march of death we'll fall
