

## Creator Of Time

Eagleheart

By the moonlight we pray in the shadows  
For salvation to come

I am the one to say when life is gone  
Define the way the world is spinning around

What would you say if you could turn back time  
To live the moments that you've only survived?

Make the damage undone  
Be forever the one

But time goes on, no way to live once more  
A part of a story that I told you before

Though the damage is done  
We must carry on

By the moonlight we pray in the shadows  
For salvation to come  
Turn the seconds of darkness to sunlight  
Oh Creator of time

Why are we here on a quest for serenity?  
Lord, won't you show us the way?  
Condemned to wander in time for eternity  
We go astray

Life may be understood backwards  
As time goes by  
But we are here to live forward  
Until we die

By the moonlight we pray in the shadows  
For salvation to come  
Turn the seconds of darkness to sunlight  
Oh Creator of time

Why are we here on a quest for serenity?  
Lord, won't you show us the way?  
Condemned to wander in time for eternity  
We go astray
