

# Taste My Pain

Eagleheart

No matter what you do  
Eden will die in cold  
There is no ray of light for the lost in void

No matter what you say  
It's equal to your decay  
I'm not gonna live in cage of yesterday

Was sick of your lies but I'm healed

This time you cry in vain  
I won't kiss the end again  
How does it feel to starve and taste my pain?

I was going through hell for those years  
Sick of it all, no more tears  
In my eyes

Dying, dying to live again  
I feel like I'm falling  
Your time has come to  
Taste my pain

This time you cry in vain  
I won't take you back again  
How does it feel to taste my pain?

Dying, dying to live again  
I feel like I'm falling  
Your time has come to  
Taste my pain
