## I Need A Good Woman Bad

## **Earl Thomas Conley**

Make the best of some bad romances
Held on much too long to past mistakes
Always holding out for something better
Seems I'm either too early or a little too late

And I need a good woman bad

To laugh when I'm happy, cry when I'm said

I know she's out there somewhere waiting for me

I need a good woman bad

One I can have without being had

If that ain't too much to ask I need a good woman bad

Now I'm no stranger to taking chances
In fact that don't bother me at all
Cause I'm so tired of one night stand's love
I'm finally ready for a lifetime fall

And I need a good woman bad

To laugh when I'm happy, cry when I'm said

I know she's out there somewhere waiting for me

I need a good woman bad

One I can have without being had

If that ain't too much to ask I need a good woman bad

I need a good woman bad

One I can have without feeling had

If that ain't too much to ask I need a good woman bad
