

# Angel Is the Devil

Steve Earle

Everybody call her angel  
She's no stranger to the devil I know  
His mark is on her body  
His fire's burning in her soul  
When we're making love  
He's laughing at us down below  
She's the devil I know

She's the devil I know  
She's the devil I know  
Said she come from heaven  
Angel is the devil I know  
She's the devil I know

Now she's the kind a woman  
Keep you coming back for more  
Got the kind of face  
You swear you seen someplace before  
Could a been your mamma  
Could a been a Mexican whore  
She's the devil I know

Now she'd drag you straight to hell  
I can tell and I think I'll just go  
Yeah the devil sent her here  
To deliver me body and soul  
Yeah and every inch she drags me down  
I'm closer to the glow  
She's the devil I know
