Down the Road

On the blue side of the evenin' When the darkness takes control You start lookin' for a reason To take your lonesome on down the road

'Cause the night is filled with strangers All you need is one you know If she ain't the one you're after Keep on lookin' on down the road

Though the miles lay long behind you You have still got miles to go How's love ever gonna find you If it ain't here it's down the road

Though the miles lay long behind you You have still got miles to go How's love ever gonna find you If it ain't here it's down the road Keep on lookin' on down the road

On the blue side of the evenin' When the darkness takes control

Steve Earle
