

Every Part of Me

Steve Earle

I love you with all my heart
All my soul, every part of me.
It's all I can do to mark
Where you end and where I start you see.

Living long in my travels left a trail of tears behind me
and then there are so many times
didn't think this kind
would ever find me.

I love you with everything, all my weakness
All my strength
I can't promise anything except that my last breath
will bear your name
and when I'm gone they'll sing a song
about a lonely fool wandering around the world and back again
but in the end he finally found her.
I love you with all my heart
all my soul and every part of me.

Across the universe I'll spin until the end and then I wonder
If we should get another chance
could I have that dance forever under
the moon and skylit stars shining down on where you are
and I love you with all my heart
all my soul and every part of me.
