Everyone's in Love with You

Steve Earle

Everyone's in love with you

Everyone's in love with you

But you don't seem to mind

But it must be tough when you're cleanin' up

Them broken hearts sometimes

Or maybe you just struggle through

And leave 'em where they lie

But everyone's in love with you

In love with you

Everyone's in love with you
They fall down at your feet
And impale themselves knowin' full well
You'll only watch 'em bleed
And they won't stop 'til the final drop
'cause they think it's what you need
And everyone's in love
In love with you

You want everyone to want you But you don't want anyone to need you 'cause baby you don't need to

Everyone's in love with you
Or don't you think I know
The way they all light up when you show up
And you're baskin' in the glow
I'd like to say that I ain't that way
Like all your other fools
But everyone's in love with you
And I am, too
I am, too
