The Revolution Starts ...

I was walkin' down the street In the town where I was born I was movin' to a beat That I'd never felt before So I opened up my eyes And I took a look around I saw it written 'cross the sky The revolution starts now Yeah, the revolution starts now

The revolution starts now When you rise above your fear And tear the walls around you down The revolution starts here Where you work and where you play Where you lay your money down What you do and what you say The revolution starts now Yeah the revolution starts now

Yeah the revolution starts now In your own backyard In your own hometown So what you doin' standin' around? Just follow your heart The revolution starts now

Last night I had a dream That the world had turned around And all our hopes had come to be And the people gathered 'round They all brought what they could bring And nobody went without And I learned a song to sing The revolution starts now
