Face Down In The Right Town

Earlimart

So you did what you thought was right Oh giving up the fight
The only way that we knew was wrong
Got me hanging on and on
Itos everything you want
Everything you need

And the people who counted on Let you down one by one So be sure what you asking for Telephone don tring no more Itas everything you want Everything you need

Ooh in the right crowd
Face down in the right town
No good uptown
But maybe somehow
Welll get back home

Don□t care who walks through the door
The life I paid twice for
Rearranging the furniture
It reminds me of who you were
It□s everything you want
Everything you need

Ooh in the right crowd Face down in the right town No good uptown But maybe somehow

Ooh in the right crowd
Face down in the right town
No good uptown
But maybe somehow
Welll get back home

Well get back home Well get back home Well get back home
