## **Thank You For Visiting Earlimart**

## **Earlimart**

If you stay you stay
And if you go you go
We appreciate where you're comin' from
We still love you though you might think we don't
This reality of putting up our nose

Summer's almost gone Will it take you home? Summer's almost gone Will it take you home?

When the sun would come I never thought it could It's the day you lived you never thought you would

Summer's almost gone Will it take you home? Summer's almost gone Will it take you home?
