

## Should've Been There

Earshot

I hope I'm not too late  
I hope that you're ok  
I left in a hurry  
As soon as they told me  
So I prayed for you  
Hang on till tomorrow  
Just don't leave me here today  
I'm coming home to you

(Should've been there)  
Should've been there I wanted to  
(Should've been there)  
Should've been there right next to you  
(Should've been there)  
Should've been there to comfort you  
(should've been there)  
Should've been there to sing to you  
(should've been there)  
Should've been there to hold your hand  
(should've been there)  
Should've been there to be with you  
After all that we've been through

Yes, it's hard to say goodbye  
And what I wish right now is to somehow turn back time  
With all of the love  
And respect  
That I hold right here for you  
Hang on till tomorrow  
Just don't leave me here today  
I'm coming home to you
