C'mon Children

Earth, Wind & Fire

Way up on that mountain children
Reachin' up there for ya children
Need ya back down here my children
To plant your pretty flowers children

Hey, hey, hey, hey, hey, hey
Come on down and lend a hand
Need your love to save the land
Yeah, yeah, yeah, yeah

C'mon children, c'mon children
C'mon children, c'mon children
C'mon children, c'mon children
C'mon children, c'mon children

The world needs the children
Cryin' for the children
The world needs the children
Cryin' for the children

Need ya back down here my children
To plant your pretty flowers children
Come on children
Come on children

Need your love to save the land
Need your love to save the land
Need your love to save the land
Need your love to save the land

To save the land, save the land
To save the land, save the land
To save the land, save the land
...
