

Moment of Truth

Earth, Wind & Fire

We're goin' round tryin' to get higher
Better come down, there's gonna be a fire
We're goin' round tryin' to get higher
Better come down, there's gonna be a fire

Smother that, hey
Smother that, hey y'all

The moment of truth is near, oh yeah
And my body trembles with fear
Just like you I'm a guilty one
Thinkin' 'bout nothin' but havin' me some fun, yeah

Time's drawing now
No place to hide

We're goin' round tryin' to get higher
Better come down, there's gonna be a fire
We're goin' round tryin' to get higher
Better come down, there's gonna be a fire

Smother that, hey
Smother that, hey y'all

We all got to do our part, oh yeah
Lend a hand and open your heart
It's all up to me and you
We gotta get ready for the moment of truth, yeah

Time's drawing now
There's no place to hide
Time's drawing now
There's no place to hide

Come on down, come on down, come on down
Tryin' to get higher
Come on down, come on down, come on down
There's gonna be a fire
...
