

## My Heart's Delight

Eartha Kitt

Why the first thing I want in the morning  
And the last thing I want at night  
Is you baby, just you baby  
Cause you're my heart's delight

The first time that you ever kissed me  
And you squeezed me with all of your might  
I knew baby, that you baby  
Would be my heart's delight

But it ain't what you say it's the way how you say it  
You say love me baby and I have to obey  
Your sweet talk puts me at your command  
And you rule me with the wave of your hand

That's why the first thing I want in the morning  
And the last thing I want at night  
Is you baby, just you baby  
Cause you're my heart's delight

But it ain't what you say it's the way how you say it  
You say love me baby and I have to obey  
Your sweet talk puts me at your command  
And you rule me with the wave of your hand

That's why the first thing I want in the morning  
And the last thing I want at night  
Is you baby, just you baby  
Cause you're my heart's delight
