

Desert Dreams

Earthsuit

The desert shall bloom just like a rose
Oasis will appear
The parched land become a pool
The desert shall bloom in majesty
The barren will conceive
Spring forth with perfect life

Desert dreams are what we dream
We see visions of that stream
Waking up the thirsty sand
Desert dreams and nothing less
We must make this wilderness
Make it blossom like the promise land

The desert shall bloom just like a rose
Chosen people sing
The riverbanks will overflow
The desert shall bloom in majesty
Lift up your eyes and see
The clouds and feels the rain
