

Seen the seas seven
Sailed across them all
Seen the moon rise over Paris
And I've watched her gently fall

On the beat keep moving
Never stopping
Though sometimes I fee like dropping
Gotta keep on and be strong - avoid the wrong
Cause in this life you walk alone
Through a danger zone - until you get home

Been around the world
But there's no place like home - oh, baby
Been around the world
But there's no place like home - oh, baby
Take me home - where my soul belongs

Been above the clouds
That paint the sky
Stood below the cosmos
And I pondered on a why

Back to the track in fact I'm breaking
For I never knew you that you
Would turn and walk away to stay
And leave me standing on my own far from home
Like a nomad, sad, bad
Dreams about togetherness
That we'll never have

Shout to the north, to the south
So the east, to the west
To the home I love best
Where my soul can rest - yes!
