

## Best Days

East 17

Early in the morning  
Walking from a restless night  
I turn 2 see your body  
Lying naked next 2 mine  
The times we shared together  
The good times and the bad  
I thought they were 4 ever  
The best days I ever had

Picking up the pieces  
Make a brand new start  
What's going on?  
The pain inside my heart

You used 2 be so happy  
Back in tho good old days  
I wish they were 4 ever  
The best days I ever had

We should be together  
Though I shall endeavour  
Don't you say we're on our own
